

## About Us

Toxic Prevention Specialists "Simple adaptations for your everyday life." Meet the Toxic Prevention Specialists "If you don't prevent it you're going to get it."

**BIOGRAPHY** Michael and Karen began this career after searching for a business that would allow them to work together on a continuous basis. Michael brings years of experience in business ownership, customer service and holds an MBA in Finance and Marketing from Roosevelt University, Chicago, Illinois. Karen earned her Master's Degree in Oncology Nursing At UCLA, Los Angeles, California and spent many years of working in various clinical practice settings. Currently we work from home and enjoy life with our 13year old son, Arthur, and our standard poodle, Ruby.

**HELLO** Our life was not always this simple. We all suffered from numerous health conditions. Our doctor and medication bills were astronomical. When we converted our life to toxic-free our lives began to change drastically &ndash; for the better. Our ailments began to subside! With Karen's scientific background we were able to make sense of this whole metamorphosis: we were lessening the load on our immune systems! We also began to take nutritional supplements: these were strengthening our immune system!

Simultaneously, Michael noticed we were spending less money! We were not making impulse purchases, our doctor's visits had decreased 80% and our medication bills also decreased 70%! We realized our potential of helping others to achieve a greater sense of well-being.

Today, via phone, internet and live gatherings, we are able to provide suggestions to people all over the continent who are looking to enhance their immune systems while making their lifestyles environmentally friendly. We are well versed in common household chemicals, manufacturers' devious labeling campaigns, personal care product contents, as well as toxic-free cosmetic options for women. In addition, we have scientifically proven suggestions for strenghtening one's immune system while lessening the load.

We welcome you on this exciting journey of health and wellness. Our goal is to provide you and your family toxic-free alternatives for everyday life. In addition, we will share simple ways to achieve financial gains .
