

The Toxic Prevention Specialists Need Team Members Who Want to Think, Live and EARN GREEN!

SPRING CLEANING!

What is in your cleaning closet?

What solutions are you using?

Do the bottles have safety caps?

Did you know that there are no regulations to protect us from labeling of household products? In addition, the same vulnerability exists for over-the-counter pharmacy items and cosmetics!

We will gladly help you switch to safer, less expensive products.

NO AMONIA, BLEACH, CHLORINE, LYE, FORMALEDHYDE, PHENOLS, PHOSPHATES!

Contact us: info@ToxicPreventionSpecialist.com

Bug Bites; what are your options?

Yesterday, my son returned from playing basketball with mosquito bites the size of nickels all over his back, arms and legs. I applied pharmaceutical grade TeaTree Oil and the itching subsided. Before bedtime I applied the Oil again and in the morning my son's bites had disappeared! Ask for more information info@ToxicPreventionSpecialist.com

Leave your shoes at the door; our baby and pets use the floor!
